RE: Letter of Recommendation

To whom it may concern,

Anthony Kruger was contracted to redevelop the Digital Stream website, internally we did not have the expertise or time to build the website over on a new framework and we had a number of issues with new integrations we needed to implement with regards to marketing the business. During the time of the redevelopment of the Digital Stream website, Anthony reported directly to me, the Creative Director.

It is my pleasure to recommend Anthony Kruger for the position of web developer. He is passionate about writing code and solving clients' problems through the development of creative and innovative software. He has tremendous potential that is not being fulfilled in his current position.

Anthony dedicated focus and time on this project in his spare time which he still managed to complete in an impressive two weeks. Not only did he rebuild the website over in the new framework, but he simplified and cleaned the source code for easier maintenance.

It's clear to see that Anthony is dedicated to providing quality work. He checked and rechecked the website rebuild before turning it in for presentation. He is detail oriented, and we could not find any bugs in the finished product which is exactly what we expected. In my meetings with Anthony, he easily comprehended instructions quickly and was flexible when changes needed to be made versus the original website that we had.

I hope you will consider Anthony Kruger for a job as a web developer. I am confident that he can meet any challenge you place before him, and I believe you would be exceedingly pleased with his work should you choose to hire him. Please feel free to contact me if you have questions or want to discuss Anthony's qualifications further. I can be reached at +27 74 155 3850 or via email at dillon.adams@digitalstream.co.za.

Yours sincerely,

Dillon Adams
